

# Twitter Keyword Search

Tianyi Tang

A dark blue diagonal gradient bar that starts from the bottom left and extends towards the top right, covering the lower half of the slide.

# Project Description

Main Language: Java

Search Algorithm:

Iterate through sentences and use regular expression to split them up

Read query and use HashSet for the keyword matching

Use a HashMap for the keyword storage (inverted index)

Sort Algorithm:

1. Bucket Sort
2. Priority Queue (Heap Sort)
